

Worshipful Company of Lightmongers

You will have received this letter, and the accompanying information, due to a recommendation from a member of the Worshipful Company of Lightmongers. They obviously consider you as someone who has a very serious commitment to the lighting industry.

Livery Companies concern themselves with bringing those steeped in their industry together for fellowship and the improvement of the industry, including support of education, and provision of charitable support to improve the lives of those less fortunate, our focus being in sensory impairment. They also provide, to use a very modern term, opportunities for networking.

The history and tradition of the City Livery Companies can only be truly understood by taking part. With that in mind the information enclosed provides further details about membership of the Company. All applicants for membership must have both a proposer and seconder who are already members. I am sure the Lightmonger who has contacted you will be your proposer, and finding a seconder can be assisted if you are unsure who else you know might be a member.

Given your commitment to the lighting industry I hope the Company will be even stronger by your application for membership, and I look forward to the possibility of meeting you in person in the not too distant future.

Yours sincerely

Margaret Fitzsimons
Master Lightmonger
